

The image shows a person's head from the back, wearing a custom-built electronic device. A Raspberry Pi board is mounted on the head, with a yellow battery pack attached. The battery pack has a white label that reads "HOUSEHOLD 3.7V 4000mAh". Several colored wires (red, green, blue, orange, yellow) are connected to the Raspberry Pi and extend down the sides of the head. On each side, a small white sensor module is attached to the ear area. The device is labeled "Raspberry Pi" and "EarSense".
